FTK-Centre for Information Technology (FTK – CIT): An Introduction

Established in 1984 as a Computer Centre with the objective of providing central computing facility to the students and staff of the University, it took more than fifteen years to transform it to a full-fledged Centre for Information Technology with the latest ICT facilities and services. Ever since its inception, the Centre has played pivotal role in developing and implementing ICT services and applications in Jamia. To offer ICT services to the end users in the University, it has established a campus wide network of 6000 nodes. In addition, for easy access to applications and services, the Centre has setup a number of WiFi hotspots within the university Campus. The Centre has also implemented University Management Information System and it manages the University portal which has been developed recently. E-Mailing facility is being provided to the faculty and staff through Google Apps. The Centre has also been providing some important e-Governance services to its employees.

It is commendable to note that in the World Education Summit 2011 held at New Delhi during July 13-15, 2011, Jamia Millia Islamia received the best jury award for ICT enabled Institution of Higher Learning. The award was given to the University for the "File Tracking System (FTS)" utility developed and implemented by its Centre the FTK Centre for Information Technology.

About the Conference

The overwhelming success of Conferences on Sustainable Development & Management of Information Technology in Universities and Colleges organized by FTK-CIT , Jamia Millia Islamia in 2009 and 2010 has encouraged us to provide the same platform to all ICT Professionals working in Indian Universities and colleges once again. OSACC-2012 is a national conference on Emerging Trends in Open Source Applications & Cloud Computing. It will provide an opportunity to researchers, academicians, corporates & industry professionals, students from Indian Universities & Colleges under one roof. The conference will include multiple technical sessions and invited talks from ICT experts and practitioners. The FTK–CIT cordially invites research papers from academicians, research scholars and industry corporates.

Conference Objectives

- Open Education Resources (OERs) and Open Source Software.
- Open Source Applications
- Cloud Computing Platforms
- Implications of Cloud Computing & Open Source Applications in educational Institutes.

Target Groups

- Heads of IT Centres of Universities and Colleges
- IT Professionals working in Academic Institutions.
- Administrators/Policy Makers.
- Students and Research Scholars.
- Corporate Executives from IT Industry.

Submission of Papers

Participants desirous of presenting their Research Papers pertinent to the Areas of the conference may submit the same as per the following schedule:

Submission of Abstract:
