Hands on Workshop on

VISCERAL MOBILIZATION

Visceral Mobilization is based on the specific placement of soft manual forces to encourage the normal mobility, tone and motion of the viscera and their connective tissues. This is an integrative approach to evaluation and treatment of a patient requires assessment of the structural relationships between the viscera, and their fascial or ligamentous attachments to the musculoskeletal system. It encourages your own natural mechanisms to improve the functioning of your organs, dissipate the negative effects of stress, enhance mobility of the musculoskeletal system through the connective tissue attachments, and influence general metabolism.

Resource Person

Dr. SANJIV K JHA (PT) (Curtin), M.D.T (Spine, USA) M.P.T, C.M.T, M.Th.[Germany], Ph.D [U.S.A]
Founder and Director of C.C.D.R., Indore.
Principal and Professor in RDGMC and Vikram University Ujjain.

He has organized more than 350 workshops, CME's and conferences in Manual and Sports physiotherapy

Venue: Clinic , CPRS (JMI)

Date: 7th September 2019

Timing: 9.30- 5.00

Director
Prof Ejaz Hussain

Organizing secretary
Dr Zubia Veqar
