Press release/invite

Seminar of Cloud Computing on December 30

An international seminar on Cloud Computing and Distributed Systems is being organised by the Department of Computer Science, Jamia Millia Islamia, on December 30 where eminent scientist Prof Rajkumar Buyya, pioneer of cloud computing, will be the main speaker.

Prof Talat Ahmed, Vice Chancellor, JMI, will be the Chief Guest at the seminar.

Prof Buyya is Director, Cloud and Distributed Systems (CLOUDS) Lab, University of Melbourne, Australia. He is also founding CEO of multinational software company Manjrasoft. He has over 53000 citations to his credit besides having 105 h-index and 359 i10-index.

Cloud computing is a form of utility computing, which allows users to use computing services on rental basis. His lecture will cover the different aspects of cloud computing including fundamentals and application domains.

The seminar will be held at 10.30 am at the University Polytechnic Auditorium.
