International Conference on
Algebra, Geometry, Analysis and their Applications
Nov. 27-29, 2014

Aims and Objectives

The main objectives of the conference are to bring the scholars working in the fields of Algebra, Analysis, Geometry and their Applications in the world at a platform so that the recent developments and researches may be discussed within. It is a well-known fact that the knowledge gets enhanced by mutual interaction and by active participation, and hence the aim is to provide a common academic atmosphere to share the knowledge with the subjects experts so that junior scientists may follow the trend of keeping the knowledge at desirable heights for catering the needs of modern world.
