NOTIFICATION

Applications are invited for a two days “**Workshop on Empirical Legal Research: SPSS Application and Data Analysis**” from March 16 (Saturday) – March 17, 2019 (Sunday) **for M. Phil., Ph.D. Scholars and Faculty Members in Law** organized by Faculty of Law, Jamia Millia Islamia, New Delhi, at **Conference Hall, 2nd Floor, Faculty of Law, Jamia Millia Islamia, New Delhi, 110025**. The last date for the submission of duly filled in application is **March 12, 2019**. The candidates who are interested to participate may download the application form from official Website i.e., <https://www.jmi.ac.in>.

The workshop is for law researchers and faculty members interested in learning about empirical research and how to evaluate empirical work. It provides the formal training necessary to design, conduct, and assess empirical studies, and to use statistical software (SPSS) to analyze and manage data.

ABOUT THE PROGRAMME

Research is a quest to gain knowledge. Research is a process in which a person observes the phenomenon repetitively and collects the data and on the basis of which he draws some conclusions. Legal Research is a type of research in which research is undertaken as a part of the process of law reform, it is undertaken with a definite end namely making suggestions for improvements in the law on concrete and easily identifiable matters and the formulation of those proposals in precise terms. Legal Research is one of the aspects of study of human behaviour, their interactions and attitudes pertaining to any law.

Conducting Empirical Research in law is of recent origin. ‘Empiric’ means ‘relying solely on observation and experiment, not on theory’. The empirical research is carried on by collecting and gathering data. The methods like observation, interview, questionnaire, survey and case study are used for the collection of data in empirical legal research. The empirical legal research can explain what type of law can be enacted, the causative factors for the delay in administering justice. Moreover, it can assist in suggesting modifications in the existing system of judiciary, enforcement machinery and in the teaching and practice of law.

Statistical Package for the Social Sciences (SPSS) is a software package used for interactive or batched statistical analysis. It allows ordinary researchers to do their own statistical analysis.

This is a workshop on **Empirical Legal Research: SPSS Application and Data Analysis**, **which** would help researcher from Law background. By this workshop, the researchers will learn the concept of mean, median, mode, central tendency, frequency, class interval and many other statistical tools for the purpose of data analysis. By the end of this workshop, the researcher would know the use of different statistical tools, application of chi-square, t-test, etc, different ways of data presentation and tabulation. Moreover, this workshop will help the researcher learn the effects of any variable and interaction effect between variables as established by using ONEWAY – ANOVA, FACTOR Analysis and REGRESSION Analysis.

LEARNING OUTCOMES OF THE PROGRAMME

The broad overview of course modules:

Module I: Elementary Statistics

- Nature of Data
- Mean Mode
- ESD (Standard Deviation)
- Tabulation of Data
- Graphic Representation
- Application of SPSS

Module II: Application of Elementary Statistics

- Data Processing
- Comparison of Means
- Correlation Analysis
- Regression Analysis
- Factor Analysis

REGISTRATION AND FEE

The applicants need to send the duly filled scanned copy of the application to the mentioned email id: kdanyal@jmi.ac.in by March 12, 2019.

Besides this, the applicants are requested to pay **Rupees Two Thousand** (2000) as registration fee **in cash** on March 16, 2019, at the time of Registration, failing which the candidature would not be considered. The registration fee includes workshop kit, session, refreshment and lunch.

PARTICIPANTS

The number of seats for the two days “**Workshop on Empirical Legal Research: SPSS Application and Data Analysis**” is restricted to thirty (30) candidates from Law discipline, Faculty members or Research Scholars pursuing their M. Phil, Ph.D. of Law, having orientation in research methodology and statistics are eligible for this programme.

CERTIFICATE OF PARTICIPATION

The participants will be provided certificates on successful completion of the Workshop. It is mandatory for all participants to attend all the classes/sessions.

OTHER INFORMATION

- Attendance for all the sessions is mandatory or otherwise the certificate shall not be issued.
- The selected candidates are required to bring their own personal laptops.

ADDRESS FOR CORRESPONDENCE

To the Office of the Programme Coordinator

Prof. (Dr.) Kahkashan Y. Danyal

Faculty of law,
