## **B. EDUCATION:**

### **August 2024: Submitted Ph.D. Jamia Millia Islamia, New Delhi**

- Ph.D. thesis on *“Influence of Mughal Art Forms on Architectural Practices.”* This research explores the impact of Mughal art forms (geometry) on architectural practices in India, focusing on tomb structures such as Humayun’s Tomb, Itmad-ud-Daula’s Tomb, and Barber’s Tomb. It highlights the prevalence of the golden ratio (phi) in these designs, showing a correlation between its use and the grandeur of structures, reflecting social hierarchies. The research uses a mixed methodology, including historical analysis and case studies, to develop an analytical framework. Findings emphasize the importance of geometric proportions in Mughal architecture and propose expanding research to other structures and employing advanced technologies like 3D scanning for enhanced understanding.

### **2009-2011: Master of Architecture from Jamia Millia Islamia, New Delhi**

- Post graduate thesis on ***“Comparative Study of Teaching Techniques and Their Effectiveness in Architecture Education”***. This thesis explores the teaching techniques to enhance the quality of teaching and learning in the Architecture classroom like informal and non-formal teaching techniques such as Studio Teaching, Workshops, cooperative, collaborative and problem-based learning.

### **(2003-2008): Bachelor of Architecture from Aligarh Muslim University, Aligarh**

- Under Graduate thesis on ***“Islamic Center, Ghaziabad”***. This project aims to promote mutual understanding and tolerance amongst the diverse group of citizens of India, to remove misunderstandings about Islam and its teachings, to create awareness about Islamic ethos and culture and to assist in the creation of a ethical society based on tolerance, universal brotherhood, love and charity.
