Press Release

**JMI B.Tech Student's Startup Secures ₹10 Lacs under Startup India Seed Fund Scheme (SISFS) to Accelerate Product Development**

Jamia Millia Islamia (JMI) is proud to announce a significant achievement by one of its talented B.Tech students, Mr. Arif Jamal, an ambitious entrepreneur, who has successfully secured ₹10 lakhs under the esteemed Startup India Seed Fund Scheme (SISFS) for his startup venture, Uvera Mobility Pvt. Ltd. This promising startup, operating under the auspices of JMI, is supported by the Centre for Innovation and Entrepreneurship (CIE), JMI.

Mr. Arif Jamal, a fourth-year Bachelor of Technology (B.Tech) student from the Department of Mechanical Engineering, Faculty of Engineering and Technology, JMI, has been diligently working on his venture since his penultimate year of the degree course. He is a determined individual who excels at integrating ideas from various disciplines, collaborating with diverse teams, and applying concepts across different industries. His relentless pursuit of innovation and continuous learning, coupled with his eagerness to tackle challenges, defines his entrepreneurial journey.

Uvera Mobility is an innovative startup dedicated to revolutionizing the cleantech and agritech industries with state-of-the-art solutions. The venture is committed to developing sustainable mobility solutions that emphasize performance, efficiency, and environmental responsibility. This notable achievement has garnered admiration not only within the university but also within the broader entrepreneurial community. Initially bootstrapped, the startup has now made significant progress towards prototype development. The financial support from the SISFS validates Uvera Mobility's dedication to innovation and sustainability.

"We are thrilled to receive this support from the SISFS. This funding will play a crucial role in propelling our growth trajectory and enabling us to continue developing innovative solutions that drive sustainable mobility. We are incredibly grateful to JMI and the Centre for Innovation and Entrepreneurship at JMI for their unwavering support and guidance throughout our journey" said Mr. Arif, the Founder & CEO of Uvera Mobility.

Dr. Rihan Khan Suri, Director of the Centre for Innovation and Entrepreneurship at JMI, expressed his appreciation for the startup's initiative. "Uvera Mobility's achievement in

securing the SISFS funding is a testament to the entrepreneurial spirit and innovation fostered at JMI. We are proud of Arif Jamal and his team for their dedication and vision. The CIE JMI is committed to supporting such ventures, and we look forward to witnessing their continued success.”

JMI takes immense pride in its association with Uvera Mobility, recognizing the remarkable entrepreneurial spirit of its student founder. This reflects the university’s dedication to fostering innovation and supporting student-led ventures. As Uvera Mobility embarks on this promising new phase, JMI extends its heartfelt congratulations and unwavering support to the young entrepreneurs driving this venture. This achievement is a testament to the entrepreneurial spirit nurtured at JMI, showcasing the university’s dedication to fostering innovation and supporting its students’ entrepreneurial endeavors.
