## II. The Indian Challenge: Why Mentoring, Monitoring and Feedback Matter

- Students from diverse socio-economic and academic backgrounds.
- Industry-academia gap: curriculum often lags behind industry requirements.
- Many students lack clarity about career goals.
- Rapid shifts in the global job market due to AI, automation, and technology.
- Faculty's evolving role as career enablers, not just academic instructors.

**Key Message:** Faculty are *career enablers* bridging the gap between academics and employability.
